

A Dime a Day

A SILVER DIME isn't much of a fortune, that's true. But a dime a day saved for a year would be quite a little help. Here are some of the things it would do: It would buy a new suit of clothes. It would pay for a week's vacation this summer. It would pay for a lot of Christmas presents for poor children. It would make a creditable payment on a home library. It would buy a good watch, an engagement ring, in fact any one of these or a thousand other things you might want. Don't despise the dime because it is small. Little drops of water make an ocean.
